

ACMT Pre-Meeting #NACCT2025

Call for Proposals: ACMT Pre-Meeting

Deadline: January 6, 2025

ACMT invites members to submit proposals for the ACMT Pre-Meeting at the 2025 North American Congress of Clinical Toxicology (NACCT). The Pre-Meeting is a full-day event that provides in-depth, themed content requiring separate registration from the main congress. To ensure a broad appeal and successful event, the subject matter should attract a wide audience encompassing the full scope of toxicology.

Previous topics/titles have included:

- New and Novel RX: Drugs, Antidotes and Delivery Systems (2016)
- Up for Debate: Addressing Controversies in Poisoning (2017)
- Performance and Enhancing Agents 360 (2018)
- Music City Mixology: The High Notes and Low Notes of Booze and Drugs (2019)
- Liver Let Die: Drug/Chemical Induced Liver Injury (2020)
- Critical Measures: Intensive Care Toxicology (2022)
- Bioethics and Medical Toxicology (2023)
- EntheoTox: Navigating the Psychedelic Frontier (2024)

How to Apply

Proposals should include the following details:

- **Title:** A clear and concise title that reflects the overall theme and vision for the pre-meeting.
- **Objectives & Description:** Briefly outline the educational objectives, highlighting innovations, research, and/or key scientific issues to be covered. Include a short paragraph detailing the overall expectations and vision for the course.
- **Format:** Plan for a full-day course of approximately 6-7 hours of educational content. We encourage creative educational formats such as breakout sessions, panel discussions, or other interactive methods, in addition to traditional didactic lectures. Please specify the number and type of presentations and the allotted time for each.
 - *Plenaries:* Suggested topics with proposed titles, presentation lengths, and preliminary objectives. Didactic sessions are generally 30 minutes each but may be grouped or paired based on related themes.
 - *Panel Discussions:* Panels should foster active discussion among the panelists and audience. Minimal use of prepared didactic material is preferred. For proposed panels, include the topic, objectives, and time allocation. Panel discussions typically last 30-60 minutes.
- **Speakers:** You may suggest potential speakers, but please do not make any commitments to speakers before submitting your proposal. The final selection of speakers and modifications to the session will be at the discretion of the ACMT Education Committee.

The Education Committee reserves the right to reconsider sessions if significant changes are made, such as speaker substitutions or shifts in the session's intended focus.

Review Process

All submissions will be peer-reviewed by the ACMT Education Committee and leadership. Selected proposals will be forwarded to NACCT for final approval, with decisions anticipated by February 2025.

Travel Support

ACMT members are responsible for covering their own expenses to attend NACCT, including travel, hotel, and registration fees. There is a small budget to support up to two non-toxicology experts, for whom ACMT may offer travel, hotel accommodations, and complimentary registration. However, this support is subject to final review and approval.

Questions

For further inquiries, please contact ACMT Senior Education Program Manager Adrienne Dunavin at adrienne.dunavin@acmt.net.

Deadline for Submission: January 6, 2025
